

FEATURED IMAGE:

TITLE: Outdoor Accessories To Refresh Your Space (Didriks)

ABOUT THE BLOG/BRIEF:

Jonathan really wants to start the outdoor furniture push EARLY this year. Given our last blog was about outdoor furniture (to be posted this week), I think a great follow-up would be outdoor accessories to really amp up the space. Think something like “You just bought the perfect piece of outdoor furniture, now add some fun accessories”. Really reach into your inner interior designer and have fun telling people how to create a warm, cozy, ambient space.

Here are the items I would like to feature:

- Skargaarden Torekov Throw
- Libeco Home Redwood Stripe Throw
- Libeco Home Montana Throw In Gold
- Cane-Line Divine Footstool In Turquoise
- Skargaarden Hemse Pillow In Marine Blue
- Eva Solo Hanging Bird Feeder
- Eva Solo SunLight Lamp With Garden Spike
- Iittala Watering Bottles, Set Of 2
- Skargaarden Marstrand Candle Lantern In Light Leather And Glass
- Eva Solo Bird Shelter
- Chilewich Bold Stripe Shag Mat In Punch

** Don't worry about imagery or searching for images—I'm happy to handle that and already have a few in mind. I added a featured image to the posts already, so those are all set.

POST DATE: Schedule for January 20th at 10:00 AM

Remember to include:

- Lots of links to our website. Link products, previous blogs, collections, and brands throughout the blog copy. Don't make the entire blog one continuous link, of course, but adding backlinks improves SEO and leads people back to our website.
- Vivid descriptions. Talk about the product in detail, explain how it works and can help them. Let's be concise but also bulk up the content so it isn't something like “this peeler is great for peeling”. Really get into it! Release your inner chef!
- Keywords. Keywords are key. Don't forget to include words like kitchen, kitchenware, cooking, cookware, chef, baker, etc. Anything related to the kitchen—try to include words and phrases that people might search for on Google and stumble upon our blog. Don't fret too much about this part—you'll get better with experience—but it is a GREAT blog writing tip that you'll use throughout your career!

It's never too early to start daydreaming about those cozy outdoor gatherings that come along with the warmer months. With Spring just around the corner, now is the perfect time to get a head start on decorating your outdoor space. You've just bought from fresh new outdoor furniture (looking for ideas? Check out our recent blog for inspiration), and you want to elevate the space to make it your own, cozy getaway. Here's our guide to creating the perfect outdoor oasis with gorgeous decor, linens, and lighting.

Outside in the early Spring, comfy throw blankets are your best friend. The Torekov Throw by Skargaarden adds a calm, neutral vibe to any space with its deep blue, sky blue, and gray color palette, while providing adequate warmth with its h

easy weave. Cozy up with this peaceful throw while propping your feet up on Cane-Line's Divine Footstool in Turquoise—a versatile addition to any seating area (indoor or outdoor) which is hand crocheted for extra comfort. If you're looking for more of a statement from your throw—try Libeco Home's Redwood Stripe Throw or Montana Throw in Gold. Featuring bold, bright colors of red and gold, and made of 100% Belgian linen and soft wool—what's not to love?

Want more accessories to cozy up your sitting areas? Check out Chilewich's Bold Stripe Shag Mat in Punch—a statement rug elevating not only design but also functionality. Being weather-resistant, quick-drying, and good both indoors and outdoors, this versatile floormat is excellent for year-round use. Counter the bright magenta rug with a gentle, deep blue throw pillow like Skargaarden's Hemse Pillow in Marine Blue to balance the space. For a finishing touch to this look, try Skargarren's Marstrand Candle Lantern in Light Leather and Glass. An elegant and classic way to provide candlelight after dark, the Marstrand Candle Lantern fits most candle pillars and features a leather handle to conveniently move and protect it from bad weather.

If you're looking to play up the natural elements of outdoor accessories, consider these Eva Solo Bird Shelters and Hanging Bird Feeders. Bird-watchers and lovers—whether amateurs or professionals—can all enjoy attracting a variety of garden birds into their space. The Bird Shelter is elegant to complement outdoor decorations and also features a woven rush where birds can feel right at home. The Hanging Bird Feeder can be hung on trees or posts and is dishwasher safe and easy to refill. To tend to your garden in an efficient, modern way, consider Iittala's Set of 2 Watering Bottles. The perfect tool for plant lovers, these watering bottles keep the soil damp so you can relax and enjoy your outdoor haven. Want to light up your garden while maintaining energy efficiency? Check out the SunLight Lamp with Garden Spike from Eva Solo. This lamp is solar-powered and can be placed anywhere along your garden path, thanks to its spike at the bottom. Nature-lovers rejoice!

Whether your style is bold, elegant, natural, or classic, you can play around with many of these versatile items as you begin to decorate and revamp your outdoor space for the Spring and Summer. Visit didriks.com to shop online for these products and more outdoor accessories to fit every mood or aesthetic. Enjoy free shipping on orders over \$80. Looking for more assistance? Visit our store locations in Belmont, MA, or Newton, MA, and speak with one of our design-savvy store associates. Find all of your decor and furniture needs in one place, so you can get started on relaxing in your new, personal, tailored-to-you outdoor oasis.
